

Newsletter #2

Aid Kit for Autonomous Online Classes

Welcome to the second
Newsletter of the Aid Kit project!

AidKit news

LTTA in Kaunas!

Between 31.01 and 02.02.2023 teachers and trainers met in Kaunas, Lithuania for Learning Teaching Training Activities (LTTA). The aim of the training was to share knowledge and experience among participants on the topic of online learning and digital tools. These tools will help both teachers and students, teachers will be better equipped to create high-quality courses and students can be better engaged in online learning.

Partners also discussed how each country dealt with the COVID-19 pandemic in regard to teaching and how much classes changed afterwards.

Project aim

Aid Kit aims to upskill adult learners' trainers working with vulnerable groups, with relevant digital tools and real-life examples that will guide them in creating high-quality non-formal online programs.

for Autonomous Online Classes

Present & Future of AidKit

Partners are working on an open-source e-learning platform. The aim of the platform is to help teachers and trainers in developing interactive classes for their students.

Each unit will be devoted to a different digital tool best suited for flipped or inverted classroom methods, as it's regarded as one of the best for distance or hybrid learning.

After implementing the units, the teachers will then test the platform to ensure the best possible results.

Video Podcast

Part of future plans of AidKit is a video podcast. In addition to standard course teachers and trainers will have access to podcast in video form to further their knowledge in developing classes and motivating students in their learning

Videos will be available on AidKit YouTube channel and e-learning platform soon!
